

Base Price

\$604,990

4 Beds | 2 Baths | 1 Half Bath | 2 Garage

About This Plan

When you choose The Chloe, the choice of several different roof lines and a variety of brick and siding treatments let you show off your personality. The interior of this home also offers unique options to make it your own. When you step inside, you'll notice a flex room to your left and a front room closet and powder room just beyond the foyer. At the back of the home is a large open-architecture space that is an entertainer's dream with a continuous flow of a great room, breakfast area, and kitchen with convenient sit-down island. This space is large enough for big gatherings but cozy enough for more intimate dinner parties. When you add the optional covered porch, you'll be able to extend your entertaining outside during warmer weather. The upper level, accessed via stairs at the center
