About This Plan

This home was designed with the lifestyle of today's families in mind. This open floor plan is centered around the Drees signature living triangle a conjoining space that features a bright and airy kitchen, family room and dining area. This open area makes this design the perfect match for families and entertainers alike! On the first floor, you will find other desirable design features, including a family foyer that provides the ultimate organization for your daily drop zone, an optional sunroom for additional relaxation and the luxurious owner's suite with the option for an enhanced bath or extra square footage. Upstairs, you can opt for three additional bedrooms or two bedrooms and a bonus/game room. Wanting even more space? Finish the lower level to include a recreation room and extra bath.
