About This Plan

What does today's home buyer want? Nothing less than practical luxury, and the Danville brings that to the table along with a craftsman's eye for detail that never fails to delight. Enter the welcoming, light filled foyer and you're greeted by a formal dining area. A study is tucked down a small hallway, making it private enough to work from home yet still a part of the action. Or choose to make it a flex room off the family room for a sewing area, play room, even an extra bedroom whatever your needs are! An arrival center, first floor bath, and large walk-in coat closet mean everything you need is close at hand. A gourmet kitchen is the star of the home with a double wall oven, built-in microwave, huge pantry, and a gorgeous and functional island with plenty of seating. The dinette and family room
