About This Plan

The Lowell features an open-concept design and versatile living space that allows you to design the perfect home for you and your family. The chef-inspired gourmet kitchen is equipped with a large center island, upgraded appliances and butler's pantry. The adjoining family room with soaring 10 foot ceilings and casual dining area creates the perfect space for entertaining family and friends. Upstairs, you will find a spacious owner's suite with sitting room, walk-in closet and luxury bath with wet room. Three additional guest bedrooms, each with walk-in closets and private bath, accommodate every member of your family. Additional features include a private main floor bedroom and bath, a laundry room located on the second floor and flex space or optional 5th bedroom. Add a
