THE GEORGE

Welcome Home To The George

Our popular George plan has a habit of just fitting in. Designed with a 40-foot width to slide into smaller lots, this compact profile belies a spacious interior. A grand entry hall sets the spacious tone that continues throughout the main living spaces. A front bedroom and full bath allow for a convenient guest suite, while a flex room can be configured as either a bedroom, dining room or study. The kitchen has a dramatic center island and plenty of storage. The owner's suite has a private bath with dual sink vanity and combination tub/shower.

With many available options to customize the space, plus extensions and creative uses of space you are sure to find a George plan that works for you.

All dimensions are approximate. Floor plans are artist's conceptions and may vary slightly from actual construction. Please call for details. Some options not included in this base price. Details subject to change without notice.
