Style and comfort are the theme of this home. Prepare meals for your guests in the large gourmet kitchen and then transfer to the adjoining family room to spend time together around the cozy fireplace. When it's time to relax, retreat to the first-floor owner's suite with an en-suite bathroom and spa like shower. Head upstairs to read in the quiet flex space or enjoy the privacy of the 2 additional upper level bedrooms. Choose storage or entertainment by opting to add a recreation room or den to the unfinished lower level.
