PLAN

\$567,990 4 Beds | 2 Baths | 1 Half Bath | 2 Garage

This new two-story home design is the epitome of casual elegance. The first floor showcases an open-plan layout among the Great Room, breakfast room and modern kitchen. A formal living room and dining room on either side of the foyer are ideal for entertaining. Upstairs, three secondary bedrooms and a luxe owner's suite with two walk-in closets provide restful retreats for family members. An unfinished basement can be completed for additional living space.
