PLAN

\$1,849,000 5 Beds | 7 Baths | 2 Half Baths

The Winthrop is a refreshing version of the traditional floorplan which revolves around a center hallway with a circular stair. It has been one of our most popular and enduring plans in both Reston and Great Falls. A central view from the front hallway through the home and into the back yard invites you inside, and the open plan and raised ceilings promote an airy freedom of movement among rooms. To accompany its incorporation into our Signature Series, we have incorporated a number of improvements including an enlarged Mudroom, Laundry, and Owner's closet, and an Hosting Kitchen with Double Island option (included with the Optional Sunroom).
