About This Community

JULY MOVE-INS AVAILABLE. Now, you can live the life you've been dreaming of in the neighborhood you've grown to love. We are pleased to present Key&Nash, a modern building of condominium and townhouse residences in the heart of Rosslyn in north Arlington, Virginia.

Designed by leading Georgetown architecture firm, R2L, Key&Nash is a boutique building of one-, two- and three-bedroom homes located just steps from the Key Bridge. You'll be amazed at the generous list of included features, such as European-styled cabinetry, quartz countertops, hardwood flooring, decorative Kichler lighting and so much more. Condominium flats all include private outdoor living, while townhouses offer direct unit access off of Arlington's quaint sidewalks.

Mingle with neighbors in the building's cozy reading room, or play billiards with friends. Take a spin in the fitness center. Host a rooftop gathering and take in all of Rosslyn's views. Key&Nash offers unmatched amenities that you have to see to believe.

For years, Rosslyn has been a coveted Arlington neighborhood due to its unrivaled proximity to DC. Now, it's becoming a destination in its own right. You could be at any one of hundreds of shops, bars, and restaurants along the Rosslyn-Ballston corridor for an unforgettable walkable lifestyle. Or stroll across Key Bridge for Saturday morning brunch. Pick up the latest fashions on Wisconsin Avenue. Fitness enthusiasts will love hopping on the Mt. Vernon trail or stand-up paddleboarding on the Potomac River. Looking for a weekend getaway? You could be at Reagan National Airport in just 20 minutes. Of course, Metro's orange line puts everything within easy reach.

Have everything you've always wanted in a brand-new North Arlington residence by scheduling your private tour today!
