## About This Community

The Kensington is an assisted living and memory care residence in the heart of Falls Church, Virginia. It is the realization of a vision of passionate leaders in the senior living industry. This industrious group sought to develop a community that takes the assisted living model of care to a higher level in an environment of comfortable elegance, staffed by loving professionals. They have accomplished just that.

At The Kensington, Our Promise is to love and care for your family as we do our own. And we do. We are here for you – skilled, prepared and ready to participate fully in your care journey. As specialists in all aspects of Assisted Living and Memory Care, we offer services and programs that are thoughtfully designed, clinically comprehensive and highly personalized. We improve quality of life for our residents to the greatest extent possible. Our enhanced program enables us to offer care beyond what the traditional assisted living community can deliver.

We are located on the corner of West Broad & North Lee Streets – only minutes from The Beltway. This central location means that cafés, shopping, entertainment, worship, and other amenities are all within walking distance.

We are a big family...a community...a village, and there's plenty of room for you. Please join us!
